A3LED-UV
固化平台式喷墨打印机

UP 升 | DOWN 降 | BREAK 急停

PRODUCT PARAMETERS

3050uv printer

Model	3050	Antifreeze	Heating system (optional)	Equipment size	69*77*55cm
Print size	30*50cm	Anti blocking	Original ink cartridge system automatic mixing	Power	AC220/110,50Hz~60Hz
Print head	Epson print head	Protect	Manual collision detection	Work environment	Temperature 15 ~ 35 humidity 20 ~ 30%
Print color	CMYK + W	Maintain	Automatic cleaning / manual cleaning	Output software	RIIN
Print height	0 ~ 180mm (customizable)	Printing platform	Tempered glass platform	Automatic continuation	The number of times can be set to automatically repeat printing
Print quality	Pictures with resolution of 720dpi / 1440dip / 2880dpi / 5760dpi / 11520dpi can be printed	Print mode	Unidirectional / bidirectional	Ink supply	Automatic ink supply system
Lifting function	Platform lifting	Height adjustment	manual adjustment	Curing system	Led UV lamp
Number of print heads	1	Special effects	Relief	Interface	Ethernet
Printing technology	Variable ink drop Technology	Ink	UV curing ink	File format	TFF, BMP, PDF, EPS, JPG, etc
Color output	White and color appear together	Motor	Stepper motor	Cylinder	Support printing
Weight	about45.5kg	Transmission mode	XY axis single guide rail + motor	Operating system	Xp/Win7/Win10
Print Example	Phone case/leather/ceramic tile/nameplate/acrylic/glass/wooden board/PVC card/cardboard/metal board/P-P/PE/packaging box/toys, etc				

SKP UV PRINTERS

A3 - 3254 UV PRINTER

Machine Parameter

Print head:	2PCS EPSON XP600	Printing Speed:	A3 3 minutes
Image Format:	TIFF/PSD	Power:	450W
Printing size:	500x320mm	Voltage:	110V-220V
RIP software:	RIIN	Operating Euvironment:	10-35° 20-80RH
Color:	WWW-CMYK+VVV	Computer system:	Windows7/8/10
Max Resolution:	720X1440dpi	Data port:	Gigabit network port
Printing Thickness:	0mm-135mm	Packape size/Gross weight:	106cm*88cm*80cm 125kg

5060 UV PRINTER

Model	5060	Name	UV printer
Printing head	Epson high-speed printing nozzle	Print size	50*60cm
Output color	CMYK+W+varnish	Printing height	0-150mm
Printing accuracy	Printable images with a resolution of 720/1440/2880/5760dpi	Number of prin heads	1~2
Antifreeze	Optional additional purchase	Printing Technology	Variable Ink Drop Technology
Anti blocking	Flash spray anti blocking, automatic mixing	Eye protection	UV radiation protection
clean	Automatic/manual cleaning	Printing platform	Alloy adsorption/glass platform (optional)
Lifting function	Platform lifting	Printing direction	One Way/Two Way
Height adjustment	Manual adjustment	Special effect	relief/varnish
Inkjet technology	Micro piezoelectric inkjet	Ink level detection	Multi channel real-time ink shortage alarm
Cylinder	supports printing	Ink type	UV ink
Printing speed	6pass/8pass	Guide rail	imported linear guide rail
Power	Stepper motor	Transmission	XY axis guide rail+motor
Software	Ruiyin/Montai	Automatic mode	fully automatic repeated printing
Ink supply	Fully automatic ink supply	Curing method	UV, UV curing, instant drying
Data	high-speed USB or gigabit network card	Dynamic printing	Automatically change code/name/date, etc. (optional)
Power	AC220/110 50Hz~60Hz	Environmental	temperature 15-35, humidity 20-30%
file format	jpg、png、pdf、tif、eps ,etc	Operating System	Win7, 8, 10
Weight	About 110kg	Equipment size	100*78*65cm
Printing materials	can be used in glass, plate, various signs，crystal, PVC, acrylic, metal Color photo printing on surfaces such as plastic, stone, leather, etc		

6090 UV PRINTER

The all steel structure frame ensuresmachine accuracy.The steel crossbeamhas been used normally for more than 10years without deformation.10 years ofexperience in research and developmentand production of ink systems, resultingin smoother ink supply. Ultra precisionprinting with a minimum ink drop of3.5PL

HD

High definition and delicate
Variable ink droplets for imported nozzles

Full color printing
Rich and beautiful colors that catch the eye

maintainable
Automatic cleaning flash spray anti blocking

6090UV printer intelligent UV printer

Model	6090	freeze-proofing	Heating system (optional)	Equipment size	About 1.4 * 1.56 * 0.76m
Print Size	60*90cm	Anti blocking	Original ink cartridge system with automatic mixing	Power	AC220/110,50Hz~60Hz
Print head	Epson print head	Ink stack	Automatic rising-lowering	environment	Temperature 15-35, humidity 20-30%
Print color	CMYK+W+varnish	maintenance	Automatic cleaning/ manual cleaning	Output software	RIIN
Printing height	0~150mm (customizable)	Printing platform	Glass/alloy suction platform (optional)	automatic rising -lowering	Automatic induction lifting
print quality	Resolution 720dpi/1440dpi/2880dpi/ 5760dpi/11520dpi images can be printed	Print mode	Unidirectional/Bidirectional	Ink supply	Siphon ink supply system
Lift function	Head lifting and lowering	height adjust	Active height limit/manual adjustment	curing system	LED UV lamp
Number of print heads	2-3 (optional)	Special effects	Relief/glossy oil	interface	High speed USB
Printing Technology	Variable ink droplet technology	Ink	UV ink	file format	Tif, BMP, PDF, EPS, JPG, etc
Color output	White, color, and varnish	motor	High precision motor	control deck	The integrated console is easy to operate
weight	140.5KG	transmission	X-axis guide rail+motor Y-axis guide rail+motor	operating system	Xp/Win7/Win10
Print Example	Phone case/leather/tile/nameplate/acrylic/glass/wooden board/PVC card/cardboard/metal board/PP/PE/fabric/cylinder/wine bottle/thermos/PT-FE/packaging box/luggage/toys, etc

6090 Premium Edition — intelligent UV printer

Model	6090 PREMIUM UV PRINTER	**Antifreeze**	heating system(optional)	**Equipment size**	1.37*1.7*0.76m
Print size	60*90cm	**Anti blocking**	Original ink cartridge system automatic mixing	**Power**	AC220/110,50Hz~60Hz
Print head	Xp600 double head, xp600 triple head, Epson i1600 triple head,Ricoh g5i triple head(Optional)	**Protect**	Automatic detection and collision avoidance	**Work environment**	Temperature 15 ~ 35, humidity 20 ~ 30%
Print color	CMYK + W + varnish	**Maintain**	Automatic cleaning / manual cleaning	**Output software**	RIIN
Print height	0 ~ 200mm (customizable)	**Platform**	Alloy or tempered glass platform (optional)	**Automatic continuation**	The number of times can be set to automatically repeat printing
Print quality	Pictures with resolution of 720dpi / 1440dip / 2880dpi / 5760dpi / 11520dpi can be printed	**Print mode**	Unidirectional / bidirectional	**Ink supply**	Automatic negative pressure ink supply system(Optional)
Lift	Print head lifting	**Height adjustment**	Manual adjustment	**Curing system**	LED UV灯
Number of print heads	2 ~ 3 (optional)	**Special effects**	Relief / varnish	**Interface**	Ethernet
Printing technology	Variable ink drop Technology	**Ink**	UV curing ink / textile ink (optional)	**File format**	tff、bmp、pdf、eps、jpg
Color output	White, color, and varnish	**Servo motor**	High precision servo motor	**Dynamic printing**	Automatically change code, name and date system
Weight	190KG	**Transmission mode**	X-axis single guide rail + motor Y-axis guide rail + motor	**Operating system**	Xp/Win7/Win10
Print instance	Mobile phone case / leather / ceramic tile / nameplate / acrylic / glass / Wood / PVC card / cardboard / metal plate / PP / PE / cloth / cylinder / wine bottle / thermos cup / PTFE / packing box / luggage / toys, etc				

6090 HD UV Printer

The all steel structure frame ensuresmachine accuracy.The steel crossbeamhas been used normally for more than 10years without deformation.10 years ofexperience in research and developmentand production of ink systems, resultingin smoother ink supply. Ultra precisionprinting with a minimum ink drop of3.5PL

Extra purchase	CCD visual positioning	Cylinder printing fixture	UV DTF Film

6090 Premium Edition   intelligent UV printer

Model	6090 PREMIUM UV PRINTER	Antifreeze	heating system(optional)	Equipment size	177 * 139 * 83.6cm
Print size	60*90cm	Anti blocking	Original ink cartridge system automatic mixing	Power	AC220/110,50Hz~60Hz
Print head	Industrial grade i3200/1600/G5i	Protect	Automatic detection and collision avoidance	Work environment	Temperature 15 ~ 35, humidity 20 ~ 30%
Print color	CMYK + W + varnish	Maintain	Automatic cleaning / manual cleaning	Output software	RIIN
Print height	0 ~ 200mm (customizable)	Platform	Alloy or tempered glass platform (optional)	Automatic continuation	The number of times can be set to automatically repeat printing
Print quality	Pictures with resolution of 720dpi / 1440dip / 2880dpi / 5760dpi / 11520dpi can be printed	Print mode	Unidirectional / bidirectional	Ink supply	Automatic negative pressure ink supply system(Optional)
Lift	Print head lifting	Height adjustment	Manual adjustment	Curing system	LED UV lamp
Number of print heads	2 ~ 3 (optional)	Special effects	Relief / varnish	Interface	Ethernet
Printing technology	Variable ink drop Technology	Ink	UV curing ink / textile ink (optional)	File format	tff、bmp、pdf、eps、jpg
Color output	White light oil comes out at the same time	Servo motor	High precision servo motor	Dynamic printing	Automatically change code, name and date system
Weight	ABOUT 200KG	Transmission mode	X-axis single guide rail + motor Y-axis guide rail + motor	Operating system	Xp/Win7/Win10
Print instance	Mobile phone case / leather / ceramic tile / nameplate / acrylic / glass / Wood / PVC card / cardboard / metal plate / PP / PE / cloth / cylinder / wine bottle / thermos cup / PTFE / packing box / luggage / toys, etc				

SKP UV PRINTERS

1612 UV Printer

SKP

DETAILED EXPLANATION OF TECHNICAL PARAMETERS

Model 1612UV printer	Print head configuration 1600,Epson i3200,Ricoh G5, Ricoh g5i (optional)	Speed mode (1.5 ~ 3 times faster than peers) 3pass 10~20㎡/4pass 8~15㎡ 6pass 5~10㎡	Ink type UV ink
Print range 1600*1200 mm	Antifreeze system Built in heating system	Weight 690kg	Servo motor High precision servo motor
Print color CMYK + W + varnish	Anti blocking Automatic mixing for flash injection and anti blocking	Size 3050*1840*1430mm	Transmission mode X、Y-axis guide rail + motor
Print height 0~150mm	Protect Automatic detection and collision avoidance	Power AC220/110 50Hz~60Hz	Automatic continuation Automatic repeat printing can be set
Print quality resolution 720 / 1440 / 2880 / 5760 / 11520dpi pictures can be printed	Maintain Automatic cleaning manual cleaning	Work environment Temperature 15 ~ 35 humidity 20 ~ 30%	Ink supply Automatic negative pressure ink supply
Lifting function Printing head lifting	Printing platform Alloy suction platform	Software RIP	Curing mode Led UV is ready to dry
Number of print heads (3 ~ 4)	Print direction Unidirectional / bidirectional	File format TIF, BMP, PDF, EPS, JPG, etc	Interface High speed USB
Printing technology Variable ink drop Technology	Height adjustment Automatic height measurement	Operating system XP、Win7/8/10	Instant printing Automatic change code / name / date printing
Color output White light oil comes out at the same time	Special effects Relief / gloss		
Print case It can be used in wood, glass, crystal, PVC, ABS, acrylic, metal, plastic, stone and leather Color photo printing shall be carried out on the surface of cloth and other textiles			

2513UV PRINTER

INDUSTRIAL GRADE UVPRINTING MACHINE

Adopting Precision Core micro thin film piezoelectric printing chip,2.5PL variable point can achieve high-definition image level, The color blocksare cleaner and smoother,The ink droplets sprayed at the same time areclose to the circle, accurately positioning the image. Support variable inkdrop technology, achieve multi grayscale printing, reduce the graininess ofthe image, make the color transition smoother, and bring high saturation andbright color output.

Model	Print head configuration	Speed mode (1.5 ~ 3 times faster than peers)	Ink type
2513UV printer	**Epson 1600, Epson i3200, Ricoh G5, Ricoh g5i (optional)**	3pass 10~20㎡/4pass 8~15㎡ 6pass 5~10㎡	**UV ink**
Print range	Antifreeze system	Weight	Servo motor
2500*1300mm	**Built in heating system**	**550kg**	**High precision servo motor**
Print color	Anti blocking	Size	Transmission mode
CMYK + W + varnish	**Automatic mixing for flash injection and anti blocking**	**4030*1920*1305mm**	**X、Y-axis guide rail + motor**
Print height	Protect	Power	Automatic continuation
0~150mm	**Automatic detection and collision avoidance**	**AC220/110 50Hz~60Hz**	**Automatic repeat printing can be set**
Print quality	Maintain	Work environment	Ink supply
resolution 720 / 1440 / 2880 / 5760 / 11520dpi pictures can be printed	**Automatic cleaning manual cleaning**	**Temperature 15 ~ 35 humidity 20 ~ 30%**	**Automatic negative pressure ink supply**
Lifting function	Printing platform	Software	Curing mode
Printing head lifting	**Alloy suction platform**	**RIP**	**Led UV is ready to dry**
Number of print heads	Print direction	File format	Interface
(3 ~ 4)	**Unidirectional / bidirectional**	**TIF, BMP, PDF, EPS, JPG, etc**	**High speed USB**
Printing technology	Height adjustment	Operating system	Instant printing
Variable ink drop Technology	Automatic height measurement	**XP、Win7/8/10**	**Automatic change code / name / date printing**
Color output	Special effects		
White light oil comes out at the same time	**Relief / gloss**		

Print case
It can be used in wood, glass, crystal, PVC, ABS, acrylic, metal, plastic, stone and leather Color photo printing shall be carried out on the surface of cloth and other textiles

DIY UV Printer

Product name:	DIY-UV flat panel printer	Print thickness	0~150mm
Assembly mode	Modular assembly	Color mode	C M Y K W G O
Painting technology:	High Precision Piezoelectric Inkjet Technology	Print interface	USB2.0/USB3.0/Gigabit network port
Operating system:	WIN7 / WIN 10	Power supply specification	AC220V/110V 50Hz/60Hz
Power off battery life:	Can be connected to UPS for continuous printing.	Operating language:	Chinese, English, Polish, French and other languages
Equipment noise:	Standby < 20DBA, exercise < 50DBA.	Ink supply system:	Drop hydraulic ink supply, Liquid level ink shortage sensing ink Box, White automatic stirring ink cartridge.
Printing speed:	5-12 square /h Different configurations have different speeds.		
Printing accuracy:	720*720/1440*720/1440*1440	Curb weight:	About 100kg
Print size	Width and customized length are not limited.		
Use the nozzle:	Epson tx800/i1600/i3200		
Mode of operation	Touch screen control operationTouch screen computer (optional)		
Printable material:	Acrylic enclosure decorative painting metal PVC glass logo signs crafts sheet metal, etc.		
Print resolution	720x360dpi, 720x720dpi, 720x1080dpi, 720x1440dpi		
RIP software:	Ruicai/Montai		
Overall dimensions:	0-35 degrees, 10%-60% relative humidity		
Operating environment:	0-35 degrees, 10%-60% relative humidity		
Storage method:	Certificate of conformity with national testing standards (LST181068026LR)		
Ink certification:	National inspection qualified (SCLO31002363002E) CE certification.		
Quality certification:	3500*700*800MM (different sizes of customized models)

TechnicalParameters:

Print head:	2PCS EPSON XP600	Equipment system:	Hosonsoft
Image Format:	TIFF/PSD	Power:	450W
Printing size:	300*400mm	Voltage:	110V-220V
RIP software:	RIIN	Operating Euuironment:	10-35° 20-80RH
Color:	W+CMYK	Computer system:	Windows7/8/10
Max Resolution:	720*1440dpi	Data port:	Gigabit network port
Printing Speed:	A3 3 minutes	Dimension:	93cm*72cm*52cm

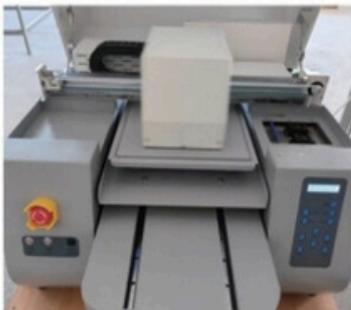

Actual appearance shooting	Strong ink supply	High precision motor	Moisturizing ink pad to prevent blockage
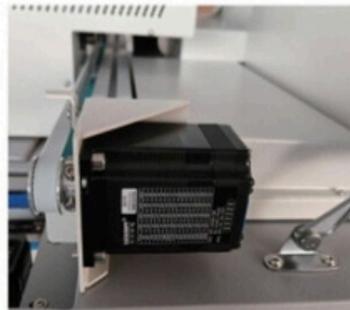

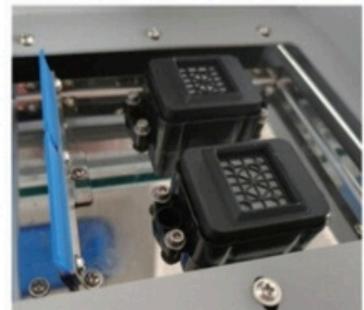

WIDE RANGE OF APPLICATIONS, NOT LIMITED BY MATERIALS

The equipment has a wide range of printing materials, with flexible media such as timely adhesive, PVC, reflectivefilm, oil canvas, carpet, leather, etc; Hard media such as glass, ceramic tiles, metal, ceiling, aluminum plate, woodenboard, acrylic board, organic glass board, foam board, corrugated cardboard, etc
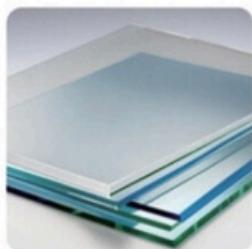

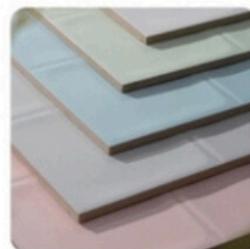

|				
Glass	Metal	Ceramic tiles	Glazed tiles	Wood
Mirror	Plywood	Self-Adhensivevinyl	Paper	Banner
Canvas	Composite materials	Composite panel	Lenticular plastic	Murals
Leather leatherette	Flexible stone	Chipboard tiles	Fibreboard	Medium-density Fibreboard

It can be widely used in the screen printing industry, gift processing industry, sign recognition industry, decoration industry, and personalized printing industry. Decoration, renovation industry, glass industry, furniture sliding door industry, signage industry, exhibition and display industry, cardboard packaging industry, leather textile industry, personal entrepreneurship, and opening various factories for processing and production

SKP UV PRINTERS

UV PRINTER
PROFESSIONAL MANUFACTURER

By adopting advanced UV inkjet technology, it not only has the advantages of high definition, high color reproducibility, and high saturation, but also achieves extremely fine line and text output, presenting more exquisite printing effects. Meanwhile, UV inkjet technology can also print on various materials, including metal, plastic, ceramics, wood, glass, etc., making the printing range more extensive.

SOURCE FACTORY

INDEPENDENT RESEARCH AND DEVELOPMENT

HIGH QUALITY MATERIAL SELECTION

LIFETIME TECHNICAL SUPPORT

PRECISION MANUFACTURING

Strong servo motor power

Ink shortage alarmdevice
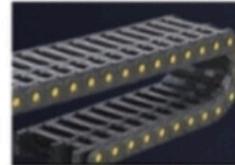

Ink pad moisturizing

High flexible cablesare durable

White ink mixing foranti clogging
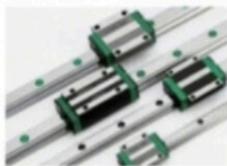

Alloy adsorption platform

High performance andhigh-quality controlmotherboard

High strength drag chain

Imported guide rail

High flexible power cord

LED light, high l ifespan and strong curing.

Flat, embossed, hollowed-out, partial,matted, 3D, and other effects can be achieved immediately, with the most comprehensive effects in the same process. The equipment has passed CE certification, 3C certification, ROsH certification, quality in-spection reports, trademarks, patents, etc. you can purchase authentic products with confidence to ensure that

Automatic cleaning, regular spray of trace ink to prevent nozzle clogging

Automatic cleaning and timed ink-jet wet printing head anti-blocking

Intelligent batch printing saves labor

Reasonable design, high quality material and stable performance

Automatic alarm for lack of ink

Mute guide

Air cooling+heat sink strong heat dissipation

Two-way color printing curve printing faster

Don't buy UV PRINTERS

1, Prepare and Research about UV PRINTERS and

take your own time to decide which type of UV PRINTER suits you.

2, UV printers can do many kinds of work,

Just it's about *your creativity and marketing talent*

to earn Money from it. So think about it twice.

3, Nowadays VARNISH Is not needed much unless there's a special need,

so decide whether you need varnish or not,

if you need Varnish then please go for

the uv machines with TWO print heads.

👇👇👇👇👇👇👇👇👇👇👇

UV PRINTERS NEEDS DAILY MAINTENANCE FOR PRINT HEADS*

At least you have to clean the print head

automatically every day to maintain its proper results,

(As the uv ink curing depends on the

temperature this process is needed)

👆👆👆👆👆👆👆👆👆👆👆

This is the main things you have to consider before buying UV PRINTERS

Welcome to

SKP UV PRINTERS

WE ARE SPECIALIST IN CUSTOMISING UV PRINTERS AS PER YOUR NEED

I am SKP (Sathish Kumar Palaniappan)

Managing Director of SKP UV PRINTERS.

We are located at 18 , A K Ramasamy Nagar , Police Station Street, Sulur -641012

We have all types of Brand new UV PRINTERS, all types of spares and accessories for UV printers, with One year Warranty, and online guidence and teaching.

We have collaborated with 18 years of experience in the UV PRINTER Manufacturing Factory in China,

SKP UV Printers
